

## Company Statement

# COVID-19

We are taking all necessary precautions and are acting in line with guidance from state and national health authorities to minimise the risks presented by COVID-19. The health and safety of our workforce is our primary concern.

EMR Golden Grove has:

- ❖ Introduced Health Declarations and temperature checks at all points of entry to site
- ❖ Increased cleaning and sanitising of common areas in the Village and operations
- ❖ Provided health and well-being information to the workforce through bulletins, presentations and posters
- ❖ Increased social distancing on-site through reducing numbers at pre-start meetings, [staggering shift start times], the use of additional buses, set dining times with cleaning in between and separate meal areas for different work groups
- ❖ Reviewed non-site essential and other roles that may work from home as required.

The range of precautionary and protective measures in place allows us to safely continue operations.

We have clear protocols in place in the event of a suspected or confirmed case of COVID-19 on site and are well prepared should we need to manage on-site isolation.

EMR Golden Grove continues to monitor the situation closely and will act quickly to update precautionary and preventative measures as necessary.
