

PRESS RELEASE

EMR GOLDEN GROVE DONATES CRITICAL EQUIPMENT TO THE PIA WAJARRI ABORIGINAL COMMUNITY

When EMR Golden Grove were approached to assist the Pia Wajarri Community with critical equipment for bulk storage of food, there was no question whether we would assist.

EMR Golden Grove donated three Sea Containers, a Generator and a Fuel Pod. Without this storage solution, the community residents would have to drive some 400kms to Geraldton for stores.

The impacts of the global COVID-19 pandemic highlighted the need and the urgency for this support to allow the residents of the Pia Wajarri community to remain self-sufficient.

EMR Golden Grove is proud to get behind the Pia Wajarri Community and assist with this valuable contribution to the Community's independence and well-being.
